The School of Nursing and Midwifery (SoNM) Blended Learning Team invites you to attend the Blended Learning Showcase Autumn 2017. This event is designed to bring together learning and teaching staff to engage in discussions around the key issues relating to educational technologies, to share effective best practice, to enhance blended learning capabilities and to improve the learning experience of students.

The event will also host all our publisher partners showcasing their eLearning products and services and is a great opportunity to meet and engage with them.

I invite you to come along for all or part of the event, see registration details below.
